

## Paddison Square Construction Update

- 2,600 square foot building on Norwalk Boulevard on North side of Bank of America will house Verizon Fuse Mobile.
- 2,600 square foot re-modeled building on Norwalk Boulevard between Chevron and Bank of America will house Tacos Don Chente
- 10,800 square foot building adjacent to the Target Garden Center. This building will contain 6 tenant spaces ranging from 1,132 to 3,000 square feet. So far, businesses confirmed for this building are Payless Shoes, L&L Hawaiian Barbeque, and Professio Nails & Spa.

Another on-site improvement that will be made to the center will be the replacement of the existing parking lot lighting fixtures. There will be a total of 17 new on-site parking lot light fixtures provided throughout the portion of the shopping center

Some additional architectural features and changes within the Paddison Square Shopping center will include:

- Arches and columns throughout the shopping center
- Tower elements throughout the center to provide added depth and dimension
- A 6-foot wide building canopy that projects from the exterior walls of each of the new existing on-site buildings. Not only will this provide an overhead cover for the pedestrian walkways around the shopping center, it will create a strong architectural element that unified and links all of the buildings from Target to the south.

We look forward to the completion of the buildings and the arrival of more business!!!
