

MORATORIUM STREETS AS OF 2023-10-17

Subsection C of §12.12.340 of the Norwalk Municipal Code reads:

"No excavation shall be made in any City street within five (5) years following the date of completion and acceptance of any work of paving or repaving of such street except for emergency repairs or service, unless the person proposing to make such excavation shall agree to pay for the resurfacing in accordance with the City's Asphalt Roadway Utility Trench Detail Standard Plan and Special Conditions for Moratorium Street/Alley Trenching."

This map shows those streets that, to the City's current knowledge, meet the moratorium criteria above. This map does not show streets currently under construction or for which the work has not yet been accepted.

RECENT PAVING LEGEND

- RUBBERIZED ASPHALT
- CONVENTIONAL ASPHALT
- SLURRY SEAL
- CONCRETE
