Happy Skin Care Opens to Public

Happy Skin Care officially opened its doors for business at 13041 Rosecrans Ave., #203 in the Rosecrans Town Square. First time business owner, Inderjit Rai, manages the business that offers facials, waxing, and threading giving customers spa treatment at affordable prices. Threading is an alternative for tweezing. People with sensitive skin are less likely to experience irritation with this ancient "Art". Threading is a method of hair removal that originated in India. It is equally popular with both men and women in Arab countries. While men typically do their ears and eyebrows, women have the option to get a full-facial treatment. Practitioners will use a pure, thin, twisted cotton thread, which is rolled over untidy hairlines, moustaches and so on, plucking the hair at the follicle level. While tweezing pulls out a single hair each time, threading will remove an entire row of hair resulting in a straighter line. For more information regarding Happy Skin Care please stop by or call (562) 623-4547.
